Degrata Tactical Inc. is offering a Defensive Pistol Course for law abiding citizens that want to improve the skills that will increase their chances of surviving a lethal encounter. If you carry a concealed pistol for self-defense, this course was created for you.

In this course, you will learn to safely carry, draw, and fire a concealed pistol accurately, so you can make multiple hits on target, from several shooting positions. You will learn the differences between cover and concealment, and how to use both for your benefit. You will learn faster reloads and malfunction clearance. We will discuss holsters, magazine pouch placement, ammunition selection, and legal ramifications of using self-defense.
