TRAINING ANNOUNCEMENT PATROL RIFLE – INSTRUCTOR COURSE

DATE: July 13, 14, 15
LOCATION: STURGIS, SD
COST: \$495

Degrata Tactical Inc. is offering a Patrol Rifle Instructor Course. This course was developed so that attending instructors will be able to provide a course of solid fundamentals, a standard set of skills, and a standard qualification to officers in their departments, which is an absolute necessity for any department or officer that carries or plans to carry a patrol rifle on duty.

Instructors will be shown the Degrata Tactical Patrol Rifle Course, given course materials, and will take part in the course drills. They will be expected to assist other instructors in performing drills, working on their own presentation and explanation of drill steps. Instructors will be shown the steps of the Degrata Tactical Patrol Rifle Course, which was developed to give officers street level combat skills, starts students out with fundamental rifle skills and marksmanship, then progresses to advanced shooting and weapons handling skills. Topics which include rifle selection, ammunition, ballistics, rifle policies, zeroing, stoppage and malfunction clearing, transitions, engaging multiple threats, movement, maintenance, cover/concealment, retention, shooting on the move, and more will all be addressed.

Instructors attending this Instructor Level Course will be able to provide officers from their departments with a solid foundation of rifle skills and increased confidence, and expect them to safely carry and employ a patrol rifle in several environments and situations.

Instructors will be shown a variety of weapons, configurations, and accessories. Even though this course primarily focuses on the AR-15 type weapon system, any patrol rifle or duty sub-gun will be acceptable.

For additional information, instructor credentials, pre-requisites, curriculum outline, detailed requirements and lodging information, contact Degrata Tactical at 605-528-1600 or training@degrata.com
