TRAINING ANNOUNCEMENT TACTICAL PISTOL COURSE

DATE: September 14-18
LOCATION: STURGIS, SD
COST: \$695

The Degrata Tactical Inc. Tactical Pistol is definitely not a basic course. It was designed for the officer that is already proficient with their pistol. This is a fast paced course that will push attending officers to a new level of proficiency while giving them more proven combat skills.

Attending officers will learn better, more efficient ways to engage targets using light and angles to their benefit. As in all of our courses, both live fire and force on force drilling will be used to test the combat skills of participants.

Topics will include, but are not limited to, individual and team movement, shooting on the move, barricade manipulation, the shooting platform, multiple shooting positions, human combat performance, ammunition selection, and the human target.

For additional information, instructor credentials, pre-requisites, curriculum summary, detailed requirements and lodging information, contact Degrata Tactical at 605-528-1600 or training@degrata.com
