Our world seems to be changing. It wasn't long ago, when bad-guys would avoid contact with the police. More and more we are seeing direct intentional opposition to law enforcement, and now military personnel within the United States, with well planned and well coordinated attacks. Not only are bad-guys more willing to confront us, but they are more violent and better armed. They are, more often, bringing the fight to us.

Degrata Tactical offers advanced weapons and tactics training for law enforcement and military personnel in a wide variety of subjects. These subjects have to do with the higher risk aspects of our jobs. We offer training that, we feel, you will find unique.

Our goal, as a business, is to save lives. We believe that we can be successful in our goal, by providing training that prepares our course participants, for a lethal encounter, with the experience of multiple force-on-force encounters in a safe training environment, with the realism necessary to inoculate course participants to combat.

We want to bring safe training that is as close to real as possible to you. We can travel to your location and train multiple officers or your entire department, or you can send individual officers to attend training courses at our location.

If you host a course, you would be asked to help promote the course to other agencies and arrange classroom and range facilities. **For hosting a course, you would be given two free slots for every 10 paid attending officers.**

Whether your officers need a re-fresher course in firearms or vehicle stops, or need advanced training with rifles/carbines or building entry, we can help!

Courses are often customized for department needs and costs vary. For that reason, please see our website for more details.

Additional training information can be found at: <http://www.degrata.com>

Thank you,

Wade A. Deuter
Training Coordinator

Hosting a Degrata Tactical Inc. Course

All of the instructors and support personnel at Degrata Tactical Inc. are passionate about providing high quality, advanced training to those that risk their lives on a daily basis in the law enforcement and the military professions.

We realize that not all areas of the country have access to advanced training that will provide the skills necessary to survive a lethal encounter. So, we would like to take advanced training to those areas. However, getting to those locations is the easy part.

In order to have a successful program, in areas that we are not familiar, we need the assistance of others. We do not know of ranges, classrooms, etc. that are necessary for many of our courses.

Working together, with Degrata Tactical Inc., to bring training to your area will allow your officers to take part in advanced training, tuition FREE.

Keep in mind, that we can customize a course for your departments needs.

How much does it cost to host a course?

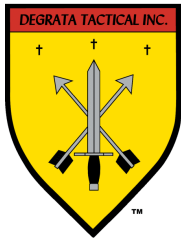

Hosting a course costs nothing; zero. Unless you incur some expense for the range, classroom, or spreading the word, hosting a course will cost you and your department nothing at all. The fee for the course, that you host, is from the other registered students.

How many free slots do I get for hosting?

You will receive two free slots for every ten paid students, unless other arrangements have been made. Sometimes we specifically plan a course for less than 10 students. For a course like that, we would make special arrangements.

What is the minimum number of students for a course?

Generally we would like to see a minimum of 10 paid students. However, the minimum number of students depends upon the course, its location, and how far we have to travel to reach your area.

DUNS Number: 607098907

What do you expect from us?

We ask that you assist us in promoting the course, which is basically making a few phone calls, sending a couple of e-mails, or sending faxes to neighboring agencies.

We also ask that you assist us with the logistics. If a classroom, range, etc. is required for the course, we ask that you help us secure use of one.

A recommendation of two hotels, which will be provided to students, is also appreciated.

What does Degrata Tactical provide?

Degrata Tactical Inc. will field all of the calls; handle all of the registration, and invoicing.

We have a full mobile training unit, and are capable of bringing paper and steel target systems, barricades, even a mock house.

Degrata Tactical will also provide Simunition pistols, carbines, and the necessary safety equipment for the students. We also have Airsoft weapons in case Simunition will not work because of logistical problems. We prefer to use Simunition because of the realism that it adds to training.

How much advance time is necessary to host a course?

We like to offer as much advance notice to agencies as possible, but we need at a minimum of 6 weeks in order to plan and promote courses.

How do we get started?

Contact us at 605-528-1600 or training@degrata.com. If you have a course in mind or if you haven't decided yet, we can talk about your needs and wants, and the logistical requirements of various courses. We can also talk about scheduling and your department requirements.

Sponsoring a Degrata Tactical Inc. Course

Sponsoring a course allows your department to have a “private” course. Course participants can be limited by you, so the minimum participation would not apply.

Your department would be responsible for the course fee, the registration of students and invoicing. We would negotiate a set price for the training and would deliver the course for that negotiated price. Our expenses would still be our responsibility.

By Sponsoring a course, we can more easily customize a course to the specific needs of your department. Course pre-requisites would be set by your department.

CO-HOST AGENCY AGREEMENT

Course Dates: _____

Course Location: _____

TITLE OF INSTRUCTION: _____

Degrata Tactical Inc.'s ability to provide a comprehensive cost effective training program hinges on the co-host agency's ability to share in logistical requirements of the training. Degrata Tactical Inc. does not have elaborate training facilities so it relies completely on the co-host agency to provide at a minimum:

1. Adequate classroom space with tables, chairs, and a large screen or a blank wall.
2. Practical training and exercise areas such as a firearms range, abandoned homes, office buildings or schools.
3. Other requirements as detailed in the "Co-Host Logistics" form for each course.

Degrata Tactical Inc. will provide:

1. Instructional staff, as well as their meals, lodging, and travel expenses.
2. Course coordination, registration, and invoicing of course participants.
3. Preparation and distribution of student materials, certificates, etc.
4. All necessary audio/visual equipment.
5. Simunition weapons and target systems.

Conditions: Degrata Tactical Inc. will invoice each student directly at a course fee of \$*** per student. Two complimentary slots will be awarded to the co-host for each 10 paying registrations that are reserved in advance. The course may be canceled by either Degrata Tactical Inc. or co-host with 30 days prior notice.
